

# RCB

## Characteristics

- Precise alignment of laser lines using remote control up to 30 m
- 360° adjustment for vertical laser lines in 3 velocity levels
- 20 mm fine height adjustment for horizontal laser lines
- For line lasers with 1/4" threaded connection
- Rechargeable battery using USB-C cable

## Manufacturer

SOLA-Messwerkzeuge GmbH & Co KG  
Unteres Tobel 25  
6840 Götzis, Austria  
T +43 5523 533800  
www.sola.at, sola@sola.at

## Technical details

|                                          |                                                                                                          |
|------------------------------------------|----------------------------------------------------------------------------------------------------------|
| Item description                         | Electrically adjustable laser scanning                                                                   |
| Operating temperature                    | 0 °C to +50 °C                                                                                           |
| Protection class                         | IP54                                                                                                     |
| Power supply                             | RCB: Li-Ion rechargeable battery (2200 mAh)<br>Remote control: Li-polymer rechargeable battery (200 mAh) |
| Operating time (at 20 °C)                | 900 applications                                                                                         |
| Material                                 | ABS plastic                                                                                              |
| Color                                    | black/red                                                                                                |
| Weight                                   | 550 g                                                                                                    |
| Working range                            | 20 mm vertical<br>360° rotatable (3 velocities)                                                          |
| Tripod thread                            | 1/4"                                                                                                     |
| Transport length                         | 17 cm                                                                                                    |
| Maximum load                             | 1,2 kg                                                                                                   |
| Field of application with remote control | 30 m                                                                                                     |

## Included accessory

- Remote control
- Charging cable
- Wall mount
- 5/8" thread adapter
