GERMAN DESIGN AWARD 2016

German Design Award 2016 for the iOX5 from SOLA

German Design Award 2016 for the iOX5 from SOLA Excellent product design enjoys a high priority at SOLA which is illustrated impressively by a long list of international design awards since 1957. With the line- and point-laser iOX5 SOLA continues this tradition: The hybrid laser, which was specially designed for use in drywall construction, was honored with the German Design Award 2016 in the category "Excellent Product Design".

Excellent product design enjoys a high priority at SOLA which is illustrated impressively by a long list of international design awards since 1957. With the line- and point-laser iOX5 SOLA continues this tradition: The hybrid laser, which was specially designed for use in drywall construction, was honored with the German Design Award 2016 in the category "Excellent Product Design".

The jury judges the iOX5: "A compact, clean and demanding precision tool that with its modern design language expresses reliability and professionalism."

Launched in 2012, the German Design Award is one of the most wellrespected design competitions in the world and is held in high regard well beyond professional circles. The competition sets the highest standards when it comes to selecting the prize-winners: thanks to the unique nomination process, products and communication design services are only invited to participate if they stand out demonstrably thanks to their design Quality.
