TECHNICAL DATA

SMART crossline laser	
Max. measurement tolerance	±0.50 mm/m
Self-levelling range	±3°
Operating range (radius)	10 m*
Operating temperature	-10 °C to +50 °C
Tripod adapter	1/4"
Power supply	2 x 1.5 V (AA) Mignon batteries
Operating time (at 20 °C)	20 h
Laser class	2, DIN EN 60825-1:2014
Output power	< 1.0 mW
Wavelength	635 nm
Dimensions	97 x 71 x 85 mm

*Depending on the ambient conditions in the workplace.

ORDERING INFORMATION

Includes

- ▶ SMART crossline laser
- ▶ 2 x 1.5 V (AA) batteries
- ▶ Case
- ▶ CD operating manual

SMART crossline laser

item no. 71013401

ACCESSORIES

KST Crank tripod	item no. 71121101
FST Compact tripod	item no. 71121701
UH Universal holder	item no. 71123701
GA-SET Threaded adapter-set for tripods	item no. 71115941
LB RED Laser visibility glasses	item no. 71124501
ZS RED Target plate	item no. 71126401

Further information regarding the accessories can be found on www.sola.at

SMART
THE PRACTICAL
CROSSLINE LASER FOR
FIRST-TIME USERS
COMPACT. USEFUL. PRECISE.

WE DEVELOP TOGETHER
WITH PROFESSIONALS.
FOR PROFESSIONALS.

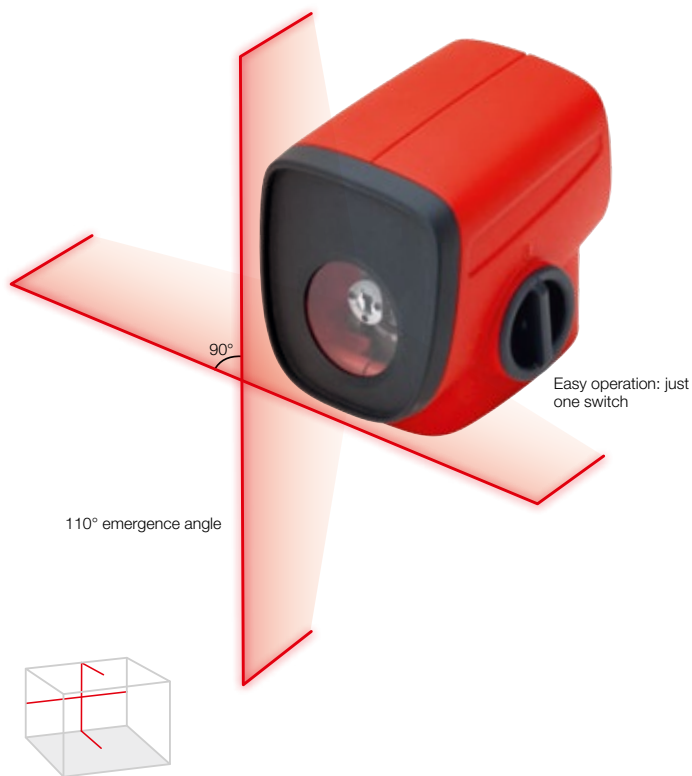

EN 99040570 | Changes, Typing and printing errors reserved.

SMART

IT COULD NOT BE MORE SIMPLE.

Simply set up and switch on: The compact crossline laser immediately projects two accurately placed, bright laser lines in the room.

SMART

PERFECT INSTALLATION ON ANY WALL.

Whether putting up shelves, fitting kitchen cupboards or hanging pictures – the SMART helps you in all these situations, making it your ‘go-to’ for help. No matter the wall installation, the SMART ensures perfection for each and every step.

The SMART provides optimal guidance when you need precision in your adjustments of furniture.

SMART

HANDS-FREE MEANS SPEED AND EFFICIENCY.

Avoid the fiddly marking process in future! The SMART allows you to keep both hands free, which means you can work quickly and efficiently. While it projects the exact laser cross, you can concentrate on your work.

It takes no time at all to mark the area that you want to paint with the SMART.

When wallpapering, simply lay the length of wallpaper along the vertical laser line.

SMART

HIGH PERFORMANCE YET SIMPLE TO USE.

With the SMART, convenience is very much emphasised. We made its design self-explanatory on purpose, making it simple even for first-time users to use this sophisticated professional technology. Thanks to its long operating time, the SMART will also be happy to ‘put in overtime’.

The clearly visible laser lines begin right in front of the device, which is ideal when you are laying tiles or other flooring.

One movement with the rotary control switch is all it takes for the horizontal and vertical laser lines to become visible. It could not be more simple.
